

Principal/Senior Software Engineers (C++)

Enea Openwave develops the next generation of Mobile Internet Technology, enabling Telecom Operators to provide a first-class user experience to mobile subscribers on data networks.

The Belfast office plays a pivotal role in the delivery of both the Traffic Management and Cloud Data Management solutions, and we are currently seeking enthusiastic and motivated Principal/Senior Software Developers, with a track record in delivering quality software to join our dynamic team in Belfast.

Responsibilities and Tasks

- Deliver high quality, high performance, low latency software components
- Work closely with system architects to provide high/low level design material
- Implement against quality processes to enable on time delivery via CICD pipelines
- Be an active contributor to continuous improvement initiatives

Essential Criteria

- Minimum 2:1 BSc degree in Computer Science, Engineering or equivalent relevant to Software Engineering
- Highly Proficient in C++ with at least 4 years (Senior) or 8 years (Principal) experience developing high performance, low latency server applications for Linux/Unix based environments
- Demonstrable experience working with database technologies (relational and/or NoSQL)
- Strong knowledge of OS/Networking concepts
- Strong communication skills – both verbal and written

Desirable Criteria

- Experience in other programming languages such as Java and Python
- Experience with mobile technologies and standards
- Experience working in a DevOps/CICD environment
- Experience in mentoring other software engineers
- Experience working directly with customers or with support/professional services teams to deliver solutions and critical fixes

Company Benefits include:

- Group Pension Plan with employer contributions
- Full sick pay for up to 26 weeks
- Private Health insurance: Market leading 75% salary in the event of prolonged or serious illness
- Bupa Private Medical – Family Cover
- Death in service benefit – 3x salary
- Annual bonus plan
- Cycle to work
- Subsidised social event
- Subsidised car parking

Please forward an up-to-date CV, detailing how you meet the essential criteria for this role to caroline.cunningham@enea.com
