

## Senior QE Engineer

Enea Openwave develops the next generation of Mobile Internet Technology, enabling Telecom Operators to provide a first-class user experience to mobile subscribers on data networks.

The Belfast office plays a pivotal role in the delivery of both the Traffic Management and Cloud Data Management solutions, and we are currently looking for enthusiastic and motivated Senior QE Engineers to join our dynamic team in Belfast. You'll work closely with development engineers – we are one team! – to drive the highest software quality through CICD and continuous, incremental improvement.

### Main Responsibilities

- Work within an agile CI/CD environment to prioritise and deliver the highest quality software within the sprint timeframes
- Create test plans, test cases and automated functional, system & load tests
- Work with wider engineering team to drive improved quality practices and processes with a strong motivation for continuous improvement
- Provide mentoring to junior team members

### Essential Criteria

- BSc degree in Computer Science, Engineering or equivalent relevant to Software Engineering
- At least 3 years' experience testing complex systems, ideally with a real time aspect.
- Linux and scripting (preferably python) skills
- Strong communication skills – both verbal and written
- Good organizational, planning and time management skills

### Desirable Criteria

- Experience with CICD tools and practices
- Ability to initiate and contribute to technical discussions
- Desire to learn and committed to personal development
- Self-Starter

### Company Benefits include

- Group pension plan with employer contributions
- Full sick pay for up to 26 weeks
- Private health insurance: market leading 75% salary in the event of prolonged or serious illness
- Bupa Private Medical – Family Cover
- Death in service benefit – 3x salary
- Annual bonus plan
- Cycle to work
- Subsidised social event
- Subsidised car parking

Please ensure you attach an up-to-date CV, detailing how you meet the essential criteria for this role and send it to [caroline.cunningham@enea.com](mailto:caroline.cunningham@enea.com).
