

## Principal/Senior Quality Engineers

Enea Openwave develops the next generation of mobile internet technology, enabling telecom operators to provide a first-class user experience to mobile subscribers on data networks.

The Belfast office plays a pivotal role in the delivery of both the Traffic Management and Cloud Data Management solutions, and we are currently seeking enthusiastic and motivated Principal/Senior Quality Engineers to join our dynamic team in Belfast.

### Essential Criteria:

- BSc degree in Computer Science, Engineering or equivalent relevant to Quality Engineering
- 4+ years' experience in a Quality Engineering role
- Excellent problem solving skills with a strong technical focus
- Demonstrable experience testing Java/C++ server based applications in a Unix/Linux environment
- Demonstrable Test Automation experience, preferably in Python/Perl

### Desirable Criteria:

- Knowledge of cloud technologies
- Awareness of mobile telecom technologies.

### Company Benefits include:

- Group pension plan with employer contributions
- Full sick pay for up to 26 weeks
- Private health insurance: market leading 75% salary in the event of prolonged or serious illness
- Bupa private medical insurance – family cover
- Death in service benefit – 3x salary
- Annual bonus plan
- Cycle to work
- Subsidised social event
- Subsidised car parking

Please forward an up-to-date CV to [caroline.cunningham@enea.com](mailto:caroline.cunningham@enea.com) detailing how you meet the essential criteria for this role.

Enea is an Equal Opportunities Employer
