

## Software Release Quality Manager

Enea (formerly Enea Openwave) develops the next generation of mobile internet technology used by major mobile providers globally! Working on cutting-edge mobile technology in the areas of 5G data and traffic management, you will work closely with development managers, system architects and niche QA professionals to deliver high quality, highly performant, low latency solutions.

The Belfast office plays a pivotal role in the delivery of both the Traffic Management and Cloud Data Management solutions, and we are currently seeking an experienced QA Manager with DevOps/Release Engineering skills to manage the validation process for the Traffic Management product suite.

This role goes beyond just managing the software testing deliverables but also encompasses the release engineering process and provides the candidate with a unique opportunity to drive a transformation project.

This is a critical role providing significant visibility across the organization.

### **Responsibilities and Tasks**

- Manage a team of high performing system and load test engineers to provide release validation on all software deliverables
- Manage the E2E release engineering process
- Drive improvements in the overall software delivery process towards CICD adoption

### **Essential Criteria**

- Minimum 2:1 BSc degree in Computer Science, Engineering or equivalent relevant to Software Engineering
- At least 4 years in managing a team of software testing professionals working in a Linux/Unix based environments
- Demonstrable hands-on experience in a software testing or software development role on client/server type applications
- Demonstrable experience in driving quality improvement initiative
- Excellent communication skills – both verbal and written

### **Desirable Criteria**

- Experience working in a DevOps/CICD type environment is a distinct advantage
- Experience with mobile technologies and standards.
- Experience in release engineering
- Experience in load/performance testing
- Experience working directly with customers or with support/professional services teams to deliver solutions and critical fixes

### **Company Benefits include:**

- Group Pension Plan with Employer contributions
- Full sick pay for up to 26 weeks
- Private Health insurance: Market leading 75% salary in the event of prolonged or serious illness
- Death in service benefit – 3x Salary
- Annual Bonus Plan
- Cycle to Work
- Subsidised Social Event
- Subsidised Car parking

Please forward an up-to-date CV to [Caroline.Cunningham@enea.com](mailto:Caroline.Cunningham@enea.com), detailing how you meet the essential criteria for this role.
